

## REACH Friendship Bracelets

1. Take the yarn in your kit and tie them together with a slip knot.
2. Pull your thread bundle through the hole in your cardboard with the knot right up next to the hole and use a little piece of tape to hold it in place while you start.

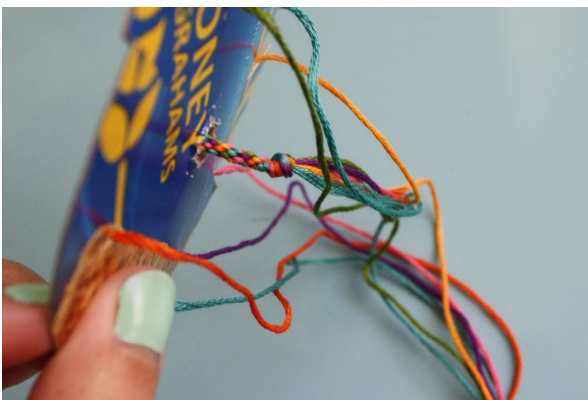

3. Arrange each of your 7 strands, tucking them into the slits made in the cardboard. There should be one slit left open.

4. Hold your loom so the open slit is in front of you, and count one, two, three strings clockwise
5. Take that third string out of its slit, \*and place it in the empty slit.
6. Turn the loom so that the empty slit is in front of you once again, and repeat steps 4 and 5 until your bracelet is long enough to wear!

Once your bracelet gets going, you can remove the tape holding the bracelet against the loom as you go if you want to keep it tight while you weave.
